

textile Easter

Calorie free, creativity heavy Easter eggs for your home...

materials

- 10cm x 30cm pieces printed cotton fabric
- matching Gütermann 100% cotton thread
- sewing machine
- scissors
- pins
- hand needle
- finger control roller cutter
- cutting mat
- iron
- hobby fill

step 1

Using the pattern provided cut out four pieces from printed cotton fabrics for each egg.

step 2

With right sides facing, pin two pieces together along one side from the top marked point to the bottom marked point. Sew together between the points using a 1cm seam allowance.

step 3

Open out sewn pieces and with right sides facing pin the next piece to one of the sewn pieces. Sew together as before along one edge between marked points. Repeat with the remaining piece of fabric leaving a 5cm opening along the final seam. Trim and clip all seams, turn right side out and press. Firmly stuff the fabric eggs with hobby fill and hand stitch the opening closed.

did you know?

In Easter 2005 the Belgian chocolate company, Guylian, won a place in the Guinness World Records with an egg composed of over 50,000 bars, the equivalent of 1,950 kilograms of chocolate.

The giant googie measured 8.32 metres high ... over 27 feet for those who still work in imperial measurements.
